

**OFFICIAL TITLE, SERIES, AND GRADE:
ENVIRONMENTAL HEALTH TECHNICIAN,
GS-0698-07**

Summary of Major Duties

The incumbent of this position is responsible for the elimination and prevention of environmental health hazards at a deployment site. This includes survey, implementation, and eradication measures to control the spread of disease and other health hazards or conditions. Ensure the health and welfare needs of Team members are addressed, including hydration, sanitation, and nutrition.

Minimum Qualifications

One year of specialized experience directly related to the position equivalent to at least the GS-06 grade level in the Federal service. Specialized experience is experience that involved identifying, preventing, or eliminating health hazards in one or more areas of environmental sanitation. Such experience must have provided a practical knowledge of environmental health hazards, survey techniques, and control and eradication methods, and may have been gained in work such as biological technician, medical technician, pest control technician, quality control positions with dairy or food service industries, or environmental health worker. Journey level experience in a trade or craft may be credited as specialized experience when the work was closely associated with and provided the required knowledge of environmental health techniques, methods, and skills, e.g., pest control operator, water plant operator.
