

**OFFICIAL TITLE, SERIES, AND GRADE:
HAZARDOUS MATERIALS TECHNICIAN,
GS-0698-07**

Summary of Major Duties

The incumbent of this position serves as a Hazardous Materials Technician of the disaster response team/specialty, or other and is responsible for performing routine and standardized techniques for setting up, operating, maintaining, demobilizing, and re-supplying a decontamination station. Provides emergency care and patient stabilization to biologically, chemically or radiologically exposed victims.

Minimum Qualifications

One year of specialized experience directly related to the position equivalent to at least the GS-06 level in the Federal service that equipped the applicant with the particular knowledge, skills, and abilities to successfully perform the duties of the position. Specialized experience is experience that involved identifying, preventing, or eliminating health hazards in one or more areas of environmental sanitation. Such experience must have provided a practical knowledge of environmental health hazards, survey techniques, and control and eradication methods, and may have been gained in work such as biological technician, medical technician, pest control technician, quality control positions with dairy or food service industries, or environmental health worker.
